Lyon 2021
PREFACE

The new edition of scientific medical research in surgery and other areas of biomedicine represents another publishing endeavor. This book is intended for experts, scientists and researchers who are just starting out in these areas of medicine. These are interdisciplinary and transdisciplinary areas from cardiology, orthopedics, oncology and some other medical fields. In this book, scientists have presented contemporary topics in the field of cardiology and cardiovascular diseases, the biggest public health problem of the modern world from which a large number of people die and fall ill. The presentation of sports cardiology is also very important, as well as the dangers to which recreational and professional athletes are exposed in order to achieve the best possible results. The chapters on breast cancer and the modern treatment of prostate hyperplasia are an outstanding presentation of some of the ailments of everyday life with modern treatment. And very interesting and valuable chapters on pneumothorax, unfortunately in today's everyday life with a completely new complication and COVID-19 infection, how to optimally treat osteoarthritis that significantly impairs the quality of life and something simple, yet so important question in pregnancy how to optimally compensate for iron deficiency. We hope, that many medics will find useful and interesting content for their education and new research. The book has been reviewed and we want it to be as successful as the previous one.

Contents

Preface.................................................................................................................. I
Chapter I ................................................................................................................ 1
C. Yildiz & H.Toku & A. Karakurt
INVESTIGATION OF THE EFFECT OF CARDIOVASCULAR DISEASE RISK FACTORS ON NERVE CONDUCTION VELOCITIES

Chapter II .............................................................................................................. 11
I. Basic & A. Krstacic & G. Krstacic
SPORTS CARDIOLOGY

Chapter III ............................................................................................................ 31
U. T. K. Korkmaz
CARDIOVASCULAR DISEASES AND PREVENTION

Chapter IV ............................................................................................................. 55
I. Kizildag Yirgin
ABBREVIATED BREAST MRI PROTOCOLS IN BREAST CANCER SCREENING- REVIEW ARTICLE

Chapter V .............................................................................................................. 73
H. C. Aybal
LASER-ASSISTED SURGICAL METHODS FOR PATIENTS WITH BENIGN PROSTATE HYPERPLASIA: HoLEP vs ThuLEP REVIEW ARTICLE

Chapter VI ............................................................................................................ 85
H. F. Sezer
CATAMENIAL PNEUMOTHORAX

Chapter VII ......................................................................................................... 91
I. Korucu
THE USE OF HOMOLOGOUS PLATELET-RICH PLASMA FOR THE TREATMENT OF KNEE OSTEOARTHRITIS

Chapter VIII .......................................................................................................101
E. H. Comert
IRON DEFICIENCY ANEMIA IN PREGNANCY
